***REQUEST FOR
PROPOSALS***

Instant Ticket Manufacturing and Services

**Identified HUB Vendors by CMBL Class
and Commodity Description**

CMBL/HUB DIRECTORY INSTRUCTIONS AND HUB VENDOR REFERENCE LISTS

Introduction

The attached HUB vendor reference lists were generated using the Comptroller of Public Accounts (CPA) Central Master Bidders List (CMBL) and HUB Directory. The lists are provided as a resource to assist Proposers in preparing and submitting a HUB Subcontracting Plan (HSP). The Texas Lottery Commission does not endorse, recommend or attest to the capabilities of any company or individual listed.

As part of the good faith effort process, Proposers are responsible for utilizing the CMBL and HUB Directory to locate potential HUB subcontractors. These databases may be accessed via the internet at the addresses below:

CMBL: <http://www2.cpa.state.tx.us/cmb/cmbhub.html>

HUB Directory: <http://www2.cpa.state.tx.us/cmb/hubonly.html>

The CMBL and HUB Directory are “live” databases that are updated on a continuous basis. Although the attached HUB vendor lists were compiled recently in order to be included in this IFB/RFP, changes may have occurred since the date that they were downloaded. Proposers are responsible for researching HUBs listed on the CMBL and HUB Directory, and verifying the HUB status of vendors that are solicited as part of the HSP. **Note that currently active certified HUBs will have a status code of “A.” All other status codes indicate that a HUB is inactive. Be sure to solicit only those HUBs who are currently active at the time that you are preparing the HSP.**

In order to meet the requirement to notify one or more minority/women trade organizations or business development centers, you may access a list via the CPA website at: <http://www.window.state.tx.us/procurement/prog/hub/mwb-links-1/> These entities have expressed their willingness to accept notices of subcontracting opportunities from vendors to distribute to their minority and woman-owned business members.

The following pages contain general information to assist Proposers in using the CPA databases.

Step-by-Step CMBL/HUB Instructions

I. Purpose

This guide is designed to assist you in accessing the Comptroller of Public Accounts (CPA) databases to locate HUB vendors who can provide specific goods or services. The database consists of the Centralized Master Bidders List (CMBL) and the HUB Directory. Note that you can view "Help" information by clicking on the yellow question marks that are next to various fields of the database.

II. Accessing the CPA Database:

Access the CPA database at: <http://www2.cpa.state.tx.us/cmb/cmbhub.html>

III. Search Screen

The Search Screen provides options for generating the appropriate vendor list. The screen includes "Search," "Sort by" and "Output as" options.

Search Options	
CMBL Only	Active CMBL vendors, regardless of HUB status.
HUBs on CMBL	Vendors that are active HUBs and are also listed on the CMBL.
HUBs not on CMBL	Vendors that are active HUBs not listed on the CMBL, but that can be located using commodity codes.
HUB Mentor Protégé	Vendors participating in HUB Mentor Protégé agreements.
All Vendors	Vendors that are active either on the CMBL or on the HUB Directory.
HUB Directory	Vendors that are active HUBs not listed on the CMBL, but that are listed by general category only (no commodity codes). Access this option under "Related Links" on the right side of the screen.

Sort Options
User can sort by Vendor Name, Vendor ID, City, Zip Code, Ethnicity/Gender, or HUB Status, by selecting the appropriate option from the drop down menu next to the words "Sort by" near the bottom of the search screen.

Output Options

To access these options, use the drop down menu located after the words “Output as” near the bottom of the search screen.

Detail List	User can select output fields from a menu. Default fields have been pre-selected, but can be customized.
All Contact Information	Produces a list of complete contact information for each vendor, including address, phone, fax, contact name, and business description.
User Defined Output	Plain text information for use with word processing programs, databases, etc. to create labels, form letters, etc.

IV. Locating HUB Vendors

HUB vendors can be located in a number of ways:

- by selecting the “HUBs on the CMBL” search option
- by selecting the “HUBs not on the CMBL” search option
- by selecting the “HUB Directory”

Commodity codes can be used to search both “HUBs on the CMBL” and “HUBs not on the CMBL.” However, the “HUB Directory” search screen only allows a search by general categories.

Searching by Commodity Codes

The following table outlines procedures for locating HUB Vendors who are listed by commodity class and item codes. For more information about locating Commodity Codes, please refer to page 4 of this document.

Step	Action
1.	Select a search option. You may use select either “HUBs on the CMBL” or “HUBs not on the CMBL.”
2.	Select the desired output for the list.
3.	Select the desired sort option for the list.

4.	In the field labeled "Selection 1," enter the appropriate class and item codes. You may enter up to three sets of codes for a consolidated list. NOTE: You may view the Commodity Code List by using either the "Class Code" or "Item Code" blue hot keys.
5.	If you choose to limit the list by district, enter the district number. NOTE: You may view District Information by using the "District" blue hot key.
6.	If you choose to limit the list by County, City or Zip Code, enter the appropriate information. If you have already limited by district, this additional information is not necessary.
7.	Press the "Search" button in the bottom left hand corner of the screen.

Searching the HUB Directory

Vendors listed in this database are HUBs who are not on the CMBL, and are listed by general categories only. This database cannot be searched by using commodity codes.

Step	Action
1.	Use the blue hot key on the right side of the screen to access the "HUB Directory."
2.	Select the desired output for the list (from this screen you may choose "Detail List, "All Contact Information," "Mailing labels," or "as tab delimited.")
3.	Select the desired sort option for the list. (Sort options for this database differ from the CMBL. They include Name, City, Ethnicity/Gender and Status.) NOTE: The detail list will appear in a format that includes Vendor Name, HUB Status, Phone Number, and Business Description.
4.	Enter a category number in the "Categories" field. NOTE: To view a descriptive list of the category numbers, use the "07, 08" blue hot key.
5.	If you choose to limit the list by County, City or Zip Code, enter the appropriate information. From this database, there is no option to limit the list by district.
6.	Press the "Submit Search" button in the bottom left hand corner of the screen.

Tips for Using the HUB Directory

The “HUB Only” search generates a more general list than the other searches. It requires you to scroll through the list in order to locate appropriate vendors or to do a key word search using “Control F.” Once a vendor is located, you can view their complete information by using the vendor hot key from the on-line list.

Viewing Information by Vendor

In all databases, you may view complete individual vendor information by choosing “All Contact Information” as the search output, then entering the specific vendor name or vendor ID number and submitting the search.

CMBL and HUB Codes

CMBL and HUB codes may be viewed on-line by clicking on the “HUB Status” and “Reason Off CMBL” hot keys. **NOTE: Currently active vendors have a status of “A.”**

V. Using the Commodity Code Book

List by Numeric Class Code

This list includes a “hot key” for each class code. By clicking on the hot key, you can view the particular class with a sub-listing of individual item codes and descriptions. Classes are general headings, so if you can’t locate an item, try using the alphabetic index. Access at:

http://www2.cpa.state.tx.us/com_book/index.html

Alphabetic Index

The index alphabetically lists items with both class and item code. Use the index to locate the class in which an item is located. No hot keys are available on this list. Access at:

http://www2.cpa.state.tx.us/com_book/alpha_index.html

Whole Commodity Book

This option lists each class (numerically) with a breakdown of all individual item numbers. No hot keys are available on this list. Access at: http://www2.cpa.state.tx.us/com_book/commall.html

Note: All class codes of 900 and above are for services.

Commodity Class 560 - Material Handling, Conveyers, Storage Equipment and Accessories

Item Number and Commodity Description
54 - Pallets and Skids (Metal, Plastic, Wood)
