ATTACHMENT A to AMENDMENT No. 9  
REVISED SEALED COST PROPOSAL**

NOTE TO ALL PROSPECTIVE PROPOSERS: THE COST PROPOSAL MUST BE SUBMITTED IN A SEPARATE SEALED ENVELOPE AS AN ATTACHMENT TO THE ORIGINAL PROPOSAL.

Payment will be based on cost per thousand tickets manufactured.

**Options**

As part of the base cost (price per thousand tickets) submitted by a Proposer, all items represented in the Proposal must be provided unless specifically identified as Invited, Offered or Specified Options. Any such options must be specifically detailed in the Proposal.

If the services represented in the Proposal are not clearly indicated as Invited, Offered or Specified Options, the cost for such services is included in the base price.

Offering a required item as an option may be cause for rejection of the Proposal.

**Evaluation of the Cost Proposal**

For purposes of evaluation and comparison, all cost cells for the Base Price and the following four Specified Options (Full UV Coating, Dual Color Imaging, Metallic Ink and Fluorescent Ink) will be evaluated. While all cost cells will be evaluated, some may have greater weight.

**Common Price**

The Texas Lottery's objective is to maximize revenue to the State of Texas through the selection of "industry best" games and those consistent with the Texas Lottery's current product mix and instant ticket strategy. The Texas Lottery evaluates games based on a variety of criteria including, but not limited to, sales performance, ticket theme, play style, planned start date and overall fit within the overall instant game portfolio. Using these criteria and others, the Texas Lottery also includes branded, proprietary or licensed games which it believes present the best opportunity for maximizing ticket sales and generating revenues for the State.

In working toward its objective to maximize revenue to the State of Texas through the selection of "industry best" games and those consistent with the Texas Lottery's current product mix and instant ticket strategy, the Texas Lottery believes that utilizing multiple vendors for instant ticket manufacturing and services promotes competition, optimizes vendor performance and enhances business resumption capabilities.

The Texas Lottery desires to select multiple Successful Proposers that demonstrate superior technical quality and service and that offer competitive pricing.

The Texas Lottery, through negotiations with all Apparent Successful Proposers, desires to establish common prices for the goods/services included in the Base Price and four specified options (Full UV Coating, Dual Color Imaging, Metallic Ink and Fluorescent Ink).

As an incentive to accept the common prices established by the Texas Lottery and at the agency's sole discretion, Successful Proposers may be offered an opportunity to produce a comparable number of games for a set period (as determined by the Texas Lottery in its sole discretion) following Contract Award. The Texas Lottery, in its sole discretion, will determine the quantity and volume of ticket production awarded to each Successful Proposer and expressly reserves the right to decrease or increase game orders consistent with the considerations in section 1.1.7, together with other factors including, but not limited to, technical quality and customer service.

**Base Price**

Each Proposer should complete the following matrix utilizing cost per thousand tickets and provide pricing information for each quantity and actual ticket size printed on the identified ticket stock. Prices must be proposed to two (2) decimal places (example: \$6.60/thousand). Base price includes any and all requirements, goods and services described in this RFP that are not Invited, Offered or Specified Options as referenced in this RFP. Specifically, base price shall include insertion of 4" X 4" POS cards in each pack, four color processing, expanded imaging and any additional spot colors required to produce the game tickets as represented in the executed working papers.
